Site is a compound or facility with an official purpose in an open, wide, cool setting near water. Many buildings in compound. People are "assigned" there. There are compartments areas ~~and buildings~~, which in & of themselves are also compartmented. Some technical, others department serves a auxiliary purpose. People in white & bright lights are working on something with a hole in it to the inside where parts are. People are using intricate, precise tools to work on the parts.
